TECHNICAL SUPPORT AND ASSISTANCE

Our technical support and advice sets us apart from the rest – we'll work with you to interpret your specifications, find the right product for the job and secure the best price.

We know how important it is that you get your glass when you need it, so we make sure that we are well stocked and can provide next day delivery for all your cut-size requirements. All types of fire rated glass as well as wired, safety, silvered, and laminated glass are held in stock. We offer competitive prices for all of our comprehensive product range.

Highly specialist products such as 60 minute integrity and insulation glass, double glazed units and toughened glass can be delivered to your specification within five working days.
